Food for Thought

Did you know, paper was invented in China as a way of recycling textiles. Rice paper, or Xuan paper, is made using a mixture of trees such as elm, bamboo, or mulberry, along with rice and other organic materials. As far back as 200 B.C. they began gluing rice paper onto their walls, thus, leading to the invention of wallpaper.

Why does Yayoi Kusama cover everything with dots?

"One day, I was looking at the red flower patterns of the tablecloth on a table, and when I looked up I saw the same pattern covering the ceiling, the windows, and the walls, and finally all over the room, my body, and the universe. I felt as if I had begun to self-obliterate, to revolve in the infinity of endless time and the absoluteness of space"
- Yayoi Kusama

Yayoi Kusama, *Fruits*, 1997, lithography, edition of 125 prints.

Artist's Birthdays

6th Michelangelo, 1475
7th Piet Mondrain, 1872

Draw your food in the style of Kusama!
Draw your dinner or your favorite food in the style of Yayoi Kusama. Think about how you can use color, shape, and pattern the way Kusama does to help create form and depth.

Share your projects with us! Post a picture of any of your Placemat Projects on Facebook or Instagram using #QACFamilyDinnerProject for a chance to win a \$40 Gift Certificate towards classes and workshops at the Art Center. A winner will be drawn April 30, 2020!
